

MAKE REVIEWS COUNT

GENERATE POWERFUL REVIEWS FOR YOUR BUSINESS

- ★ Integrates seamlessly into text messaging, digital loyalty, and mobile coupons
- ★ Sends automated and targeted requests for customer reviews
- ★ Redirects negative reviews to management for prompt resolution
- ★ Proven to build online reviews that have major impact on local search results

Our powerful mobile messaging technology helps take your business' review generation efforts to new heights! Our comprehensive system lets you easily tie in powerful review requests directly into your existing mobile messaging initiatives.

Online reviews are critically important for the success of any local business. Your prospective customers are looking to the internet to check out your business. The review generation tool makes it easy for your existing customers to leave their online reviews, while negative experiences will be redirected to your management team for quick resolution.
